INTENSIVE
I LIVING LAB

Specifics of this format

Meet your peers on site, match with your team and take on 1 challenge. Let's add a bit of competition – because another team will tackle the same challenge! Be prepared for time management, intensive communication, quick decision taking and creativity sprints. Collaborate with entrepreneurs, mentors and experts to generate ideas and prototypes for 1 of 6 challenges.

Mobility & Locations

This I Living Lab format takes place online from 20 – 26 March 2023. You will travel to Latvia for a week from 27 - 31 March 2023 in order to work with your teammates on the theme you chose.

Team assembly

The teams are built according to your personal preference and your talent. The aim is to achieve the best possible match of different students and their vocational skills and business talents.

Schedule

The Intensive I Living Lab will start online during 1 week. In that week you get to know each other and your theme. In the following week, you'll travel to Latvia for 1 intensive week on-site together with your team.

Mini Showdown & End	31 March

Dedicated time: approx. 80 hours
Daily team meetings
Travel: 27 - 31 March 2023 to Vidzeme UAS, Latvia

E³UDRES²

I Living Labs

ECTS

For participating in an Intensive I Living Lab, you will receive 3 ECTS.

Conditions for passing an Intensive I Living Lab

In order to get a positive grading for your I Living Lab, you need to attend the online meetings before the week in Latvia. Moreover, travelling in an Intensive I Living Lab is compulsory. Therefore, it is necessary to be physically present at the on-site program. Illness and certain family circumstances are reasons for which a legitimate absence applies. This must always be supported by an attestation.

This format is perfect for…

E³UDRES² students that want to get international experience, but are unable to commit themselves to an event spanning over several weeks.
