

# E<sup>3</sup>UDRES<sup>2</sup>

**Online Opening Conference**  
**22 & 23 March 2021**

**Towards Future Universities**  
**for Smart and Sustainable Regions**

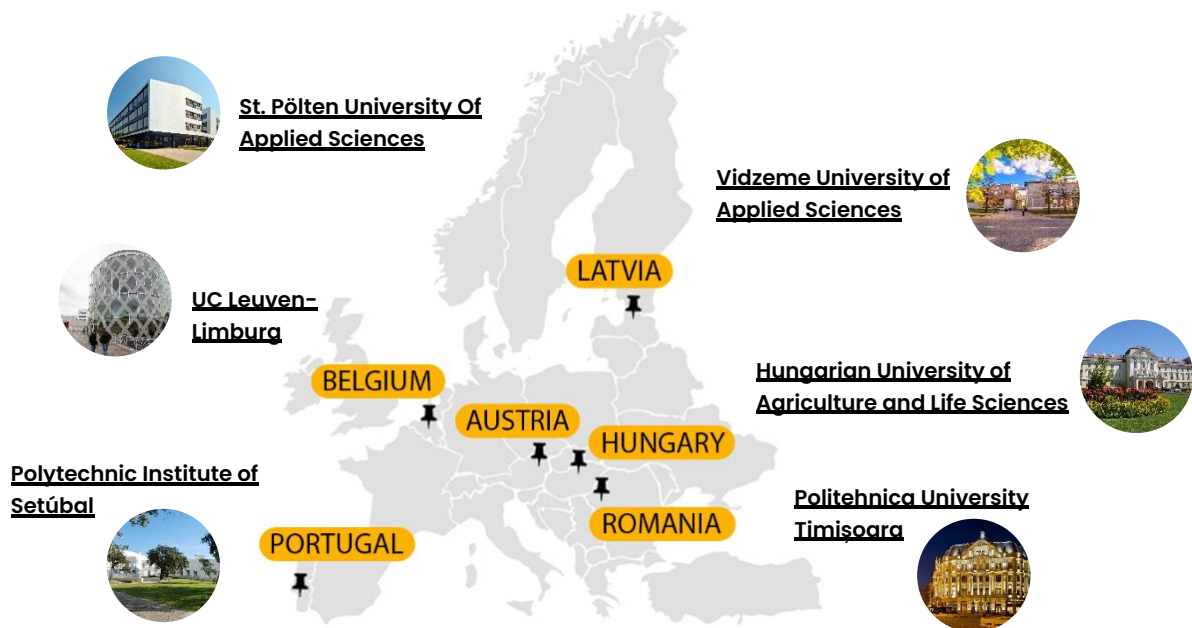

Conference Booklet

## What's E<sup>3</sup>UDRES<sup>2</sup> ?

E<sup>3</sup>UDRES<sup>2</sup> stands for *Engaged and Entrepreneurial European University as Driver for European Smart and Sustainable Regions*. It is one of 41 "European Universities" – a flagship initiative of the European Union that aims to build strong and long-lasting alliances between universities all over Europe in order to strengthen the European Higher Education Area and create a European Education, Research and Innovation Area – allowing a *new generation of creative Europeans* to cooperate across languages, borders and disciplines to address societal challenges and skill shortages faced in Europe.

The E<sup>3</sup>UDRES<sup>2</sup> European University Alliance comprises a total of six international partner universities: The **Polytechnic Institute of Setúbal (Portugal)**, the **Hungarian University of Agriculture and Life Sciences (Hungary)**, **UC Leuven-Limburg (Belgium)**, the **Politehnica University Timișoara (Romania)**, and the **Vidzeme University of Applied Sciences (Latvia)**, all under the leadership of the **St. Pölten University of Applied Sciences (Austria)**.

The alliance aims to promote the **development of small and medium-sized cities and their rural environments** into **smart and sustainable regions** and shapes a prosperous future with the best possible quality of life for self-determined people in a progressive European society. E<sup>3</sup>UDRES<sup>2</sup> also co-creates outstanding **ideas and concepts for future universities**, integrates **challenge-based education, mission-oriented research, human-centred innovation** as well as **open and engaged knowledge exchange** as interrelated core areas and aims to establish an **exemplary multi-university campus across Europe**.
